RMA-process and conditions

1. RMA Form

In order to make sure your return is being processed as quickly and efficiently as possible, please check if your request (RMA) is completely filled out and signed.

2. Error description

Please complete the form as accurately as possible, all fields marked with * are required.

Please give us a detailed error description (e.g. low laser performance, distorted projection...).

If possible, please answer the following questions:

- When did the error occur?
- Where is the device being used (description, ambient temperature, interfering field...)?
- Is the device in contact with hazardous substances?

3. Verification / Quotation

Before you return a device, please check, using the operating instructions, if there is indeed a malfunction. In case of doubt, you may contact the **Z-LASER** service team. If no error can be found, there will be a handling fee of 45,- € net plus shipping costs. For the product types LP, Z3D-Control, ZQ, and Z-Fibre there will be a charge of 200,- € plus shipping costs for the diagnosis and quotation. These costs do not apply in case of warranty or if you place a repair order.

The warranty claim does not apply in case of foreign interference, removed serial numbers / identification plates or improper handling.

4. Consignment

Please include all accessories (power supply, etc.) when consigning a device for diagnosis duty paid (DDP). If possible, please use the original packaging and indicate clearly, using the RMA return notice, that the device is to be repaired.

When dismantling a laser projector, be careful to only unbolt the 4 screws attached to the device flange of the cardanic mount. Please do not ship the mounting! Make sure to back up your data before you return the device.

Mail Address: **Z-LASER GmbH, Repair Center, Merzhauser Str.134 in D-79100 Freiburg**

5. Defects after the expiration of the warranty period

For detailed information, please get in touch with our service team (<http://www.z-laser.com/en/services/service-and-maintenance/>). We will check your device and find the best solution for you (repair vs. purchase of a new item). If you decide on the repair of the defective device, you will be charged for the repair only. There will not be additional costs for the diagnosis, the same applies in case of purchasing a new item.

6. Miscellaneous

Terms and RMA conditions of **Z-LASER** GmbH apply.
